Itinerary

Day 1 – Arrival at Tours

Tours is a town of art and history. This ancient Gallo-Roman capital became Saint Martin's town during the IV century when the inhabitants begged him to be their bishop. A great builder, Saint Martin covered the Touraine grounds with churches and chapels. He also required the erection of the Marmoutier monastery on the North river bank of the Loire. During the V century, a basilica was erected above Saint Martin's tomb. Today, only two towers remain: the Charlemagne Tower and the Clock Tower. During the XV and XVI

centuries, Tours became the capital of the French Kingdom. It enjoyed a true blossoming of art and architecture. It is the perfect place to stroll along alleys and small parks, around the Place Plumereau bordered by beautiful wooden houses, or in the cathedral district, which has begun construction in the XIII century and was not finished before the XVI century. You may visit the cloister Psalette which is located right next to it and the castle whose tower Tour de Guise is the only remains from the XIII century. Tours possesses beautiful museum: the Beaux Arts museum located in the ancient bishop or the archeological museum of Touraine region located in the beautiful Hôtel Gouin – true

masterpiece from the Renaissance era. Bicycles delivery and adjustment at the hotel at 6:00 pm or in the next morning - Lodging and breakfast in a 2-star hotel in Tours center

Day 2 –Villandry and Azay le Rideau chateaux

30 or 38 km ride (18 or 24 miles) - You will leave Tours by the riverbanks, first the Loire river's then the Cher's, in order to reach Villandry passing by Savonnière's quaint little village. Villandry was erected around 1536 and is the last of the big castles built on the Loire riverbanks during the Renaissance era. The magnificent gardens of the Chateau de Villandry, reminder of the spirit of the gardens of the Renaissance, were restored at the beginning of the 20th Century by Dr. J. Carvallo, the owner since 1906. Trough countryside or following the Cher and Loire river's banks you will go to Azay le Rideau. Built on an island in the middle of the Indre River, the Azay-Le-Rideau castle was erected during François I's reign by a rich financier. It is one of the dwellings combining French castle charm to the Italian palaces' grace. The monumental staircase – which concentrates most of this rich décor – is the prestige centerpiece of this architecture. Rich person tapestries and pieces of furniture of XVI, XVII and XVIII centuries decorate the apartments of the castle. To the South and West, two ponds are laid out, reflecting facades.

Nowadays, the castle is home to a beautiful Renaissance style furniture collection retracing the seigniorial life of the XV century and Renaissance era. Then you will follow Loire River’s banks to come across Ussé where you may visit Sleeping Beauty’s castle since it is said to have inspired Charles Perrault. Located on the edge of the

This historical city has held on to ancient houses and few churches, which you may discover while strolling through its alleys. Then you will leave this medieval city to discover Chinon vineyards and old and picturesque villages as Cravant les Coteaux or Panzoult. You will cross Vienne River at l’Île Bouchard, a former river port. You will go through countryside to the medieval castle of Le Rivau, an historically significant 15th century château, completed with moats, draw bridges, and dramatic fortifications. At the end of the 20th century, Le Rivau, after a ten-year restoration campaign once again found its original splendor, and seems once again to have come from the pages of a book of fairy tales and legends. Founded in 1101 by Robert of Arbrissel, it quickly became famous by welcoming religious communities from different horizons, which, were placed under the authority of an abbess. Each community had its own covenant. The Abbey enjoyed the patronage of great protectors such as the Duke of Anjou and his descendants the Plantagenet, kings of England. The abbey houses the remains of Henri II, Alienor of Aquitaine and their son Richard the Lion Hearted. The French Revolution terminated the order in 1792 and part of the buildings was transformed into prisons until 1963. Since then, the site has been undergoing major restructuration work. amazement and surprise do not end here! The ditch was haven to the villagers during the XVI century and homes were carved in the tender rock. You will discover a whole village with its baker, a silk farm since silk worms were raised, as well as magnificent wine presses and caves. There you may visit the lofty fortified castle built during the XI century: 650-meter long fortifications and 13 towers demonstrate the powerful defensiveness of this site!
